

Members of the Committee,

I oppose SB 184 and HB 5262 because voting in person and entering my ballot into the machine, assures me that my vote will be counted. Absentee ballots have always been available for those needing them. As far as concern about illness, a person is free to keep their six feet distance at their place of voting, just as they do at the grocery store.

Thank you,

C. Marcella Kurowski
